MESSAGE FROM GUEST OF HONOUR

he Penang State Government is pleased to be once again to be associated with Malaysian Secondary Property Exhibition (MASPEX) Penang. I would like to thank the organizers Malaysian Institute of Estate Agents (MIEA) for inviting me as their Guest of Honour as well as being one of the Speakers over the 4 day event.

With the Property Market heading out of a consolidation phase following the cooling measures introduced by both Federal and State Government as well as the introduction of GST, we can expect the 2nd Half of 2015 to be more active with sales coming from the Secondary Market.

As property market in Penang continues to grow positively, Penang State Government has to ensure the provision of affordable housing.

As you are aware, the prices of property in the four major urban cities in Malaysia, namely Wilayah Persekutuan, Selangor, Johor and Penang, have seen an uptrend, in particular, in the last five years.

The rise in the prices of property in an open and free market is predominantly determined by demand. The State Government is aware of the need to ensure that property prices do not spiral out of control, and towards that end, we have introduced several cooling measures to cool down the hot property market in Penang. These measures include, the imposition of a 10 and 5 year moratorium on the sale of low / low-medium cost and affordable housing.

Cheaper and more affordable homes are certainly still within the reach of such eligible and deserving Penangites, and the Penang state government has in fact, in the last 6 months, offered such affordable housing to 3,396 eligible and deserving applicants.

The new category of affordable housing which was introduced in January 2014 by the Penang state government is aimed at enabling Penangites, especially first time home buyers, to have access to housing, amidst a hot property market whereby house prices seem to be ever increasing.

The Penang state government has made the provision of such affordable housing its priority, whereby these units have a price cap of RM400,000 on the island and RM250,000 on the mainland, with a size control of between 750 to 900 square feet.

Todate, the Penang state government has embarked on 12 projects in all of the 5 districts in Penang which will see a total of 22,512 units of affordable housing being built. In fact, even the private sector has committed to building some 12,606 units of affordable housing units in Penang todate.

It should also be noted on the latest statistics, namely, out of the 4,837 units of affordable units that have been requested for the name-list from the state government to-date, 3,396 have been offered, whilst the balance 1,441 will continue to be selected from our pool of eligible applicants (namely approximately some 6,000 since our registration exercise began in January 2014) in our monthly selection meetings.

With all these statistics, clearly, the property market in Penang is set to grow, and the Penang State Government will continue to place emphasis on the provision of affordable housing units so as to ensure first time Penangites home buyers are given access to housing.

As Penang continues to see progresses, the State is acutely aware of ensuring this progress is tempered with good infrastructure development to this end the State' has announced a holistic Transportation Proposal which is expected ensure Penang ends up with a modern and balanced transportation system which future generations can enjoy. It is in line with the socio-economic objectives for sustainable growth into the next few decades, the State Government is committed to implement our 20-year Transport Master Plan (TMP) strategy using the Project Delivery Partner (PDP) method.

While previously the State had to depend on the Federal Government to allocate the necessary funding to implement all major roads and public transport projects, using the PDP method enables the State Government to ensure the TMP can and will be implemented HOLISTICALLY according to well-planned schedules.

Its implementation will therefore ensure good infrastructural network connectivity and efficient vehicular traffic dispersal for vehicular movement of goods and services as well as the much-needed public transport network for the island and Seberang Perai mainland which will also enjoy the economic benefits. The Penang TMP strategy in fact is in line with the National Transport Strategy for Penang to remain globally competitive for its manufacturing industry and for the efficient mobility of people and goods for its service and tourism sector.

We are expecting over 3500 plus secondary properties to be showcased over the 4 days through offering a wide range of properties for potential house hunters from all walks of life.

It is always our wish for members of the public to take this rare golden opportunity to visit all the booths and discuss with the exhibitors about agency's arrangement in relation to secondary property dealings (sales, let, rent, purchases) and to gain more detailed relevant and valuable real property's information.

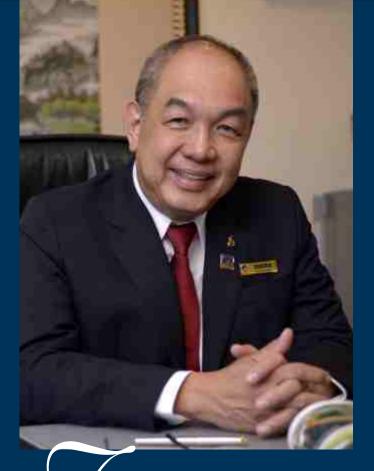

In addition we are distributing over 5000 Souvenir Booklets for those who register at MIEA's Booth. Sr. Mark Saw Organising Chairman - MASPEX 2015 Penang MIEA Penang Branch Chairman

MESSAGE FROM PRESIDENT

or a change, MIEA's Branch Chairman Mr Mark Saw and his team of dedicated Committee Members decided on taking on the challenge to move this year's MASPEX 2015 to a new venue to Queensbay Mall Penang, we are proud to announce that all the 30 booths that was offered were fully taken up.

In business we need to take risks as well as taking on new ideas in the way we do business amidst a very challenging secondary property market environment. I would like to congratulate and thank all the participating exhibitors, many of whom will be exhibiting for a third time. Good luck and may this new initiative of having a secondary property exhibition bring you more sales closing.

To our main sponsor Maybank Berhad, I was told that there are also many housing loans that were submitted with encouraging approval rates that is way above industry average. There are also encouraging news of more sponsorship who find MASPEX PENANG as an avenue for reaching to the secondary property buyers. Many leading portals such as TheEdgeProperty.com, Mudah.my, PropertyGuru.com are working closely with MIEA to promote this initiatives to reach more customers nationwide.

Visitors to the exhibition will have a busy time going through more than 6,000 properties valued at approximately RM2.75 billion that are being offered for sale in the four days event.

We wishes all visitors to MASPEX Penang 2015 a good day and hope you buy the properties of your choice.

Thank you

Kind regards,

Erick YT Kho
President of MIEA
